ABOUT US

Connecting You with a Smarter Lifestyle

At LIVE E Z, our focus is to enhance the way you live through innovative technology solutions. As a leading provider of residential and commercial building automation, we connect people with devices to make their daily lives easy and more convenient.

Our mission is to provide smart and cost-effective solutions for controlling and automating residential and commercial devices such as lighting, audio-visual systems, security systems, and energy management. Our goal is to deliver exceptional service, build long-lasting relationships with our clients, and continuously improve their quality of life.

As a subsidiary of North American Aviation Group and an authorized dealer for Control4, TruAudio, and Q-Motion in Sri Lanka, we stay ahead of the latest technology trends to provide the best possible experience for our clients. We take pride in educating and resolving any problems to make sure our clients get the most out of their daily life moments.

North American Aviation Group is the parent company of LIVE E Z and holds a portfolio of established airlines (passenger and cargo), shipping lines, freight forwarders, and logistics companies across the USA, Canada, Mexico, the Caribbean, Australia, New Zealand, and Ukraine. With over 20 years of experience and a network of over 10,000 agents in the USA and 1800 in Canada, NAAG has a wealth of knowledge and expertise in the travel, logistics, shipping, and freight-forwarding industries. With an annual turnover of USD 120M from operations in the USA, Canada, Australia, and New Zealand, NAAG is a trusted and reliable partner.

Vision

To become the leading home automation and control solutions provider in Sri Lanka.

Mission

We focus on enhancing the lifestyles of people to yield convenience & comfort with innovative technological solutions.

Streamline your world with smart integrations - who knows in and out of smart home.

LIVE E Z is the exclusive distributor of Control4, Pakedge, Triad, Colorbeam, American Lighting, TruAudio, and Lumilum in Sri Lanka.

Control4, SnapOne's flagship smart home automation brand, is one of the world's leading providers of automation and networking systems for homes and businesses. Control4, which was introduced at the CEDIA Expo home technology in 2004, has a presence in over 100 countries, with its operating system compatible with thousands of third-party products and a network of 15 million connected devices worldwide. The installation of Control4 hardware is carried out through over 6,000 authorized dealers, with the software being customized to unify and personalize the homeowner's technology. Snap One, formed from the merger of Control4 and SnapAV in 2021, is headquartered in Charlotte, North Carolina, and Salt Lake City, Utah, with branches in Austin, Texas; Chicago, Illinois; Charlotte, North Carolina; Draper, Utah; Hebron, Kentucky; Irvine, California; Portland, Oregon; San Jose, California; Frankfurt, Germany; Solothurn, Switzerland; York, England; Shanghai, China; Bangalore, India; Belgrade, Serbia; and Melbourne, Australia. Control4 integrates multiple devices and orchestrates them to work together. It takes the pile of entertainment remote controls and consolidates them into one, and then extends that control to lights, security, cameras, climate control, shades, doors, ... etc.

We are Certified.

Our certification validates our commitment to providing top-notch technology solutions for personalized automation, enabling remote control of residential or commercial devices.

IT Services

At LIVEEZ, we understand that running a business can be challenging, and that's why we offer a range of services to make your life easier. Our team of experts is dedicated to providing top-notch IT consultation, web development, custom software development, and cybersecurity solutions to help you streamline your business processes and achieve your goals.

IT Consultation

Our IT consultation services are designed to help you navigate the complex world of technology and make informed decisions that will benefit your business. Whether you need help with infrastructure planning, software selection, or cybersecurity, our team of experts will provide you with personalized solutions tailored to your specific needs.

Web Development

In today's digital age, having a strong online presence is essential for any business. At LIVEEZ, we specialize in creating responsive, user-friendly websites that are optimized for search engines and designed to convert visitors into customers. From e-commerce sites to custom web applications, we have the expertise to deliver high-quality solutions that will help your business thrive online.

Custom Software Development

No two businesses are the same, which is why we offer custom software development services to help you create solutions that are tailored to your specific needs. Whether you need a mobile app, enterprise software, or a custom CRM system, our team of experienced developers will work closely with you to deliver a solution that meets your unique requirements.

Cybersecurity

With the increasing threat of cyber attacks, protecting your business from security breaches is more important than ever. At LIVEEZ, we offer a range of cybersecurity services to help you secure your network, data, and devices. From vulnerability assessments to threat management, we have the expertise to keep your business safe from cyber threats.

Before You Build / Renovate

1

Plan Early

To ensure seamless integration of your smart home technology system with your build, plan early by consulting with a Technology Designer or Home Automation Specialist. Collaborating with your architect and contractor, a dedicated Technology Designer can help you find the best solutions for your home's design aspirations while ensuring the system can evolve with your needs. Smart home automation can increase your home's value and reduce energy costs. Early planning saves time, ensures functionality, and prevents costly variations from late planning.

2

Discover

Come and see for yourself! Get an up-close-and-personal look at the most innovative and intuitive technologies by visiting our fully immersive Home & Lifestyle Experience Centre. Experience the most popular smart home user solutions and experiences all in one place. You can discover first-hand how smart home automation solutions work by touching and interacting with fully functioning installations.

3

Collaborate

Our certified Technology Designers and technicians have over 10+ years of experience as experienced integrators. We adopt a consultative approach to meticulously tailor technological solutions that work for you in a holistic design. We collaborate with you, your builder, contractor, architect, or interior designer to ensure that all your needs and wants are delivered from start to finish.

Realizing your vision for your home, the way you live, and your interior and architectural ambitions for the project requires good collaboration. The best smart home projects are always the result of excellent collaboration, understanding, and experience. Trust us to take that journey with you and deliver the best results for your smart home project.

4

Design

Engaging in our unique Design Services means that our Design Consultants will create a bespoke Proposal exclusively for you and your home. Just like how you acquire paid services from Architects, Landscapers, and Electrical Engineers to design a system for your home, smart technology requires the same attention.

Our Design process provides advice, insight, and creative solutions to educate clients about smart home technology and its endless possibilities. You will receive a whole-home solution Design Proposal that outlines budget, cost allocation, and technology location.

The Design Service stage is a compulsory step before commencing any works and installation. However, you are not obligated to proceed with the project after receiving your custom-made Design Proposal. Our Design Services offer a personalized and tailored approach to ensure that your smart home project is precisely what you need and want.

Experience

Unveil cutting-edge and imaginative technologies at our Home & Lifestyle Experience Center that offers complete immersion.

Delve into the world of smart homes and explore the most sought-after user experiences and solutions under one roof. Ensure to carry along your blueprints and innovative ideas to the center, and we will help you materialize your dream smart home with our expertise.

Our Showroom is Your Showroom!

At Liveez, our showroom is your personal space! We encourage you to collaborate with your architect and contractors by bringing them along for a consultation at our Home & Lifestyle Experience Center. Our center is open for clients to brainstorm and workshop ideas during the project. Just bring your blueprints and innovative concepts, and we'll help you create your dream smart home with our cutting-edge technology.
